Interior paints consist of water or oils, binders, pigments and solids. Binders are plastic-like polymers that bind the pigment together to form a tough, continuous film. In oil paints, look for "drying oils," like linseed (soya) or modified oil (alkyd). In latex paints, look for 100 percent acrylic binders.

### Best Interior Paints for Every Room - The Home Depot

For all the benefits of water-based paint, try out the Dulux Quick Dry range. Why choose water-based paint? Dulux Quick Dry water-based paint harnesses the latest technology to take the hassle out of trim-based decorating tasks. Easy to apply and low odour, it will cut your painting time by half.

### Water Based - Dulux Paints

New water-based Armstead Trade Quick Dry Gloss and Satin are the smart choices when you need an affordable, fast drying, non-yellowing alternative to traditional solvent-based trim paints. You can use all your usual trim painting skills with Quick Dry Gloss and Satin, but here are a few expert tips to ensure you get a finish to be proud of.

### Advice Water vs solvent based products | Dulux Trade Paint ...

What is the best water-based product to use in a kitchen or bathroom? Dulux Trade Diamond Eggshell is ideal for both. It is a tough, durable mid-sheen finish that will withstand repeated washing. If ventilation is poor and a mould resistant paint is needed use Dulux Trade Mouldshield Quick Drying Eggshell.

### Advice Interior and Exterior FAQs | Dulux Trade Paint Expert

Water-Based: Water-based paints are often referred to as latex paint, but this is a bit of a misnomer since they rarely contain latex. Instead, most water-based paints today use acrylic polymers to provide the adhesion and lasting finish you want in your interior paint.

### The 9 Best Paints for Interior Walls in 2020

Here's an interior-painting primer, starting with the pros and cons of oil-based and water-based, or latex, paints. Oil-based paint is more durable, but it takes longer to dry, and cleanup requires turpentine or paint thinner (mineral spirits). Oil-based paints are made with either alkyd (synthetic) or linseed (natural) oils.

### Differences in Water-Based, Oil-Based and Latex Paints | DIY

Farrow & Ball has made a name for itself through its extensive range of gorgeous, rich, highly pigmented colours. From Hague Blue to India Yellow and Arsenic, their water-based paints will beautify any space. Their interior paints are available for wood, metal, walls, and floors. Some of the products available are:

Description & Documents Rust-Oleum® Zinsser® FastPrime™ 2 is an acrylic resin, water-based, interior, stain-blocking primer fit for creating a solid base for any topcoat. It is a white primer but can be tinted to any number of pastel shades by adding 2 fluid ounce of universal colorant per gallon.

### Zinsser&reg; FastPrime&trade; 2 Interior Water-Base Primer ...

Oil-based paints contain alkyd resins which are prone to yellowing over time. White gloss paint is particularly susceptible, especially where there are low levels of natural sunlight. Water-based paints contain synthetic resins which are not light sensitive, so will stay white for much longer. So it all depends then?

### Oil or Water-Based Paint - Which is Best? - Decorating Advice

That's why we have introduced Dulux Trade Quick Dry - a new water-based trim paints range that delivers productivity and a high-quality, professional finish. For the first time, you'll be able to work faster to achieve a finish that mimics the high sheen and flowout properties of traditional solvent-based products.
