There are only sissy boys; there are no sissy men. And it's mostly boys who call other boys sissies. The word's not really used by adults of either sex, except in retrospect: "As a boy, he was often called a sissy." A lot of gay men openly admit to being sissies as boys. They come right out and say it. There is a good book about male homosexuality called The Sissy Boy Syndrome. It has a lot about the etiology of homosexuality. 75% of sissy boys grow up to be gay. 25% do grow up to be ...

Sissy - Wikipedia

This book is one of the very few available that validates boys who go through a sissy stage during their childhood in an intelligent fashion. Through research and analytical thinking and writing, Green finally validates that in his research he found that "it is not playing with girl toys and identifying with female play that makes a boy gay, it is a strong indicator that he already is gay however".
