Retirement The New Way To
Retire Early

Work Less, Live More was written before the 2008 financial crisis, so many of its suggestions seem laughable now (especially the repeated suggestion that semi-retirees can subsist on owning and flipping multiple homes).

As our individual hours of work have increased, so the general pace of life has sped up. An international study from the 1990s used walking speed as proxy measure for the pace of life, and found that sure enough, the very steps we take have accelerated annually, over the last 15 years. Yet somehow the faster we go, the less time we seem to have.
